Flooring Surface Materials and Wall Material

"Love your home a little more – start from the TAB Flooring."

# COMPANY PROFILE

Hebei Moyo Technologies Co., Ltd is a distinguished enterprise dedicated to the research, development, and production of an array of trendsetting, cutting-edge, and highly popular decoration materials.

Our extensive product range encompasses WPC wall panels, WPC foam board, PVC marble sheets, Acoustic panels, WPC decking, PVC/WPC sheets, LVT flooring, SPC flooring, PVC/WPC Skirting, and a comprehensive assortment of related accessories. Our global reach is impressive, with exports spanning 50 countries across North America, Western Europe, Southeast Asia, the Middle East, Australia, and more.

The exceptional quality of our products, coupled with a flawless pre-sales and after-sales service framework, has earned us widespread acclaim from customers around the world.

Our reputation in the industry is well-established, thanks to our years of rich export experience. Our factory is strategically located in Shijiazhuang, Hebei Province, benefiting from the proximity of the convenient Tianjin port.

Since its inception, the company has unwaveringly adhered to the business principles of quality orientation, prioritizing service, safeguarding reputation, and placing the customer at the forefront. We are constantly engaged in the development of new materials and the optimization of designs. Employing world-class machinery in production and continuously enhancing our quality management system, we are able to offer customers comprehensive solutions, including OEM and ODM services. Our dedicated 20-person sales team is highly trained, brimming with experience, and exceptionally responsive.

We extend a warm invitation to customers from both domestic and international markets to visit us and engage in negotiations for mutually beneficial cooperation. Together, let's strive to create a more beautiful and environmentally friendly home for people worldwide.

Your trust is the driving force that propels us forward. We are always at your service, ready to meet your needs.

## DEVELOPMENT EVENTS

### 2006-2009

Developed 5 proprietary PVC formulations

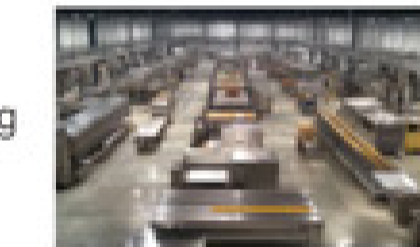

Strategic partnership with German chemical supplier BASF/Bayer

Began supplying commercial flooring substrates

### 2015-2019

10,000m<sup>2</sup> dedicated flooring factory built

Achieved CE/FloorScore certifications

Featured in Domotex Hannover

### 2010-2014

Officially launched Flooring Systems

First SPC rigid core production line installed

Export breakthrough: 20 containers to Australia

### 2020-2025

Digital 3D pattern printing technology adopted

Annual capacity reaches 8 million sqm

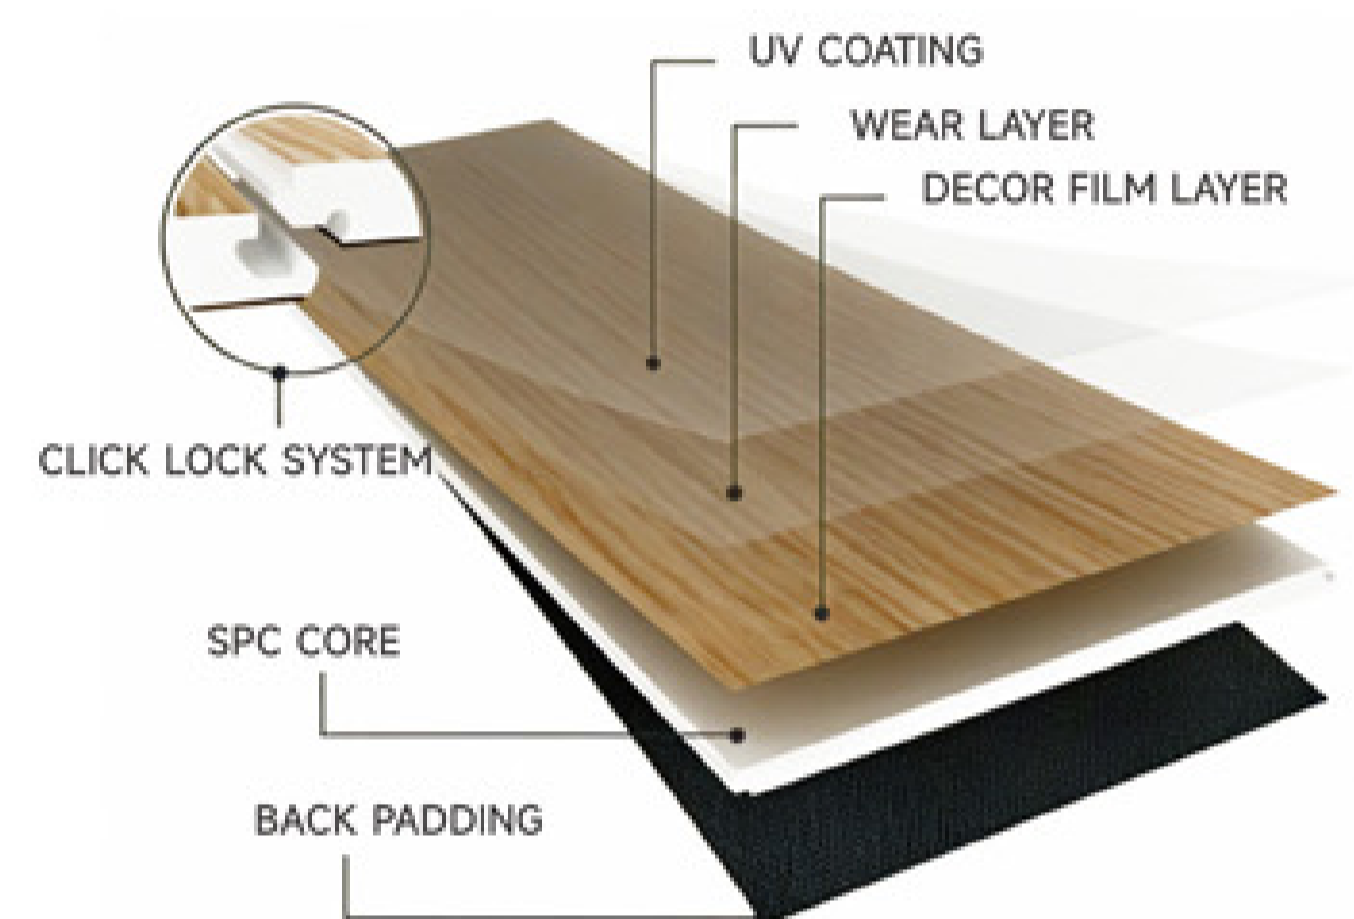

LEED-approved collections for green buildings

# SPC FLOORING

SPC flooring, short for Stone Plastic Composite, is a type of rigid core luxury vinyl flooring made from a combination of limestone powder, polyvinyl chloride, and stabilizers, offering a durable and waterproof alternative to traditional flooring materials.

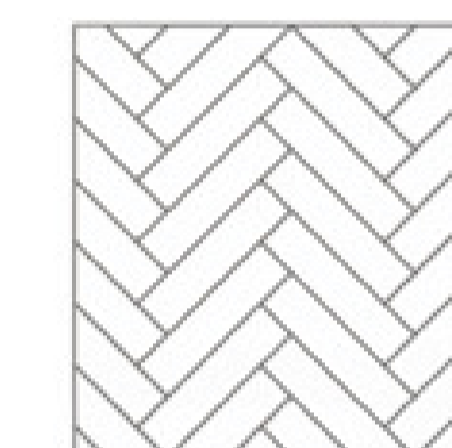

As one of the most sought-after products of Hebei Moyo Technologies Co., Ltd., SPC flooring combines superior quality with versatile features to create ideal spaces for global customers. We offer a rich palette of colors, effortlessly matching various aesthetic preferences and decorative styles, while also supporting customized dimensions to precisely fit the needs of different spaces, from residential homes to commercial venues—allowing your unique style to shine.

# LVT FLOORING

LVT flooring refers to "Luxury Vinyl Tile" flooring, also known as "luxury vinyl tile" flooring. It is a flooring made of multiple layers of materials, including a PVC (polyvinyl chloride) base layer, a printing layer, a transparent layer, and a wear-resistant layer. The printing layer of LVT flooring can imitate various materials, such as wood grain, stone grain, and tile texture, making it look more realistic. LVT flooring has the advantages of water resistance, wear resistance, easy cleaning, and easy installation, so it is widely used in commercial and home environments.
